Subject: Comanche bottom ash pond (BAP) closure plan modification
Date: Thursday, May 27, 2021 3:51:00 PM

Hi, Jennifer and Quinn,

I was reading through the 257 rules regarding closure or retrofitting of CCR units. I wondered if you need to revise your closure plan for the BAP, per 257.102(b)(3)(B)(iii). I checked the public website for this facility, and the only closure plan for this unit is from 2016. Please let me know if I am misinterpreting this section and no amendment is warranted or if you have amended your plan but not posted it yet.

Thanks.

Linda Jacobson
